## BESCHREIBUNG

The Gople family keeps growing, with new versions dedicated to different lighting design languages.

It also becomes a portable lamp that offers an impressive 32-hours of running time without mains electricity. Thus, everyone can be the architect of light in their own space, wherever it may be.

Every element is designed to guarantee excellent light quality with high efficiency and low energy consumption. Long running times unplugged go hand-in-hand with rapid recharging times.

The soft, diffused light emission can be adjusted to 3 different brightness settings to create different ambiances.

It is perfect for everyday lighting scenarios in personal spaces, but also for more social moments.
